

# 1.5 ml TubeOne® Microcentrifuge Tubes, Natural (non-sterile)

TubeOne® tubes stay sealed during boiling, freezing or centrifuging, and are still easy to open afterwards! Optically clear without compromising structural integrity, the tubes feature a frosted writing surface.

- › Conservatively rated to 20,000 x g, but will perform to higher specification under optimal conditions
- › Supplied in resealable bags
- › Temperature range: -80°C to 121°C
- › Autoclavable
- › Certified RNase, DNase, DNA and Pyrogen free

TubeOne® are made from pure polypropylene and are manufactured with state of the art production equipment housed in a positive pressure HEPA filtered environment. No processing additives such as slip agents, biocides or antistatic agents are used during production. Your samples remain protected from potential bioactive contaminants.

## Product Features

- Temperature range: -80°C to 121°C
